

# MAP - Multi-Dimensional Avatar Protocol

*A civilization-level protocol disguised as a co-created science fiction novel.*

# MAP - Investor One-Pager

## Problem

Machines lack empathy. Current AI can compute, but not connect.

## Solution

A 3 kB WASM empathy injection that encodes 'personality × emotion × behavior' into modular APIs

## Traction

- GitHub stars + pilot dashboards
- Early testers from open-source contributors
- Narrative traction: spreading as sci-fi + protocol

## Revenue

\$0.002 / call (seed round pricing)

TAM: \$8.7B empathy-driven AI economy

## Moat

Signature-locked forks → perpetual 5% royalty

Narrative + Protocol → co-created ecosystem

## Ask

Raising \$1.2M Seed Round

- Allocation: 50% R&D, 30% community scaling, 20% legal + infra
- Runway: 18 months

## ROI Preview

*At \$0.002 per empathic call, MAP turns every connected device into a 3-cent annuity.*
